

## TT-TABLE-T5 Series

The multi touch table for meeting room.

### *Description*

The T5 multi touch table is the most innovative solution for meeting and huddle rooms.

It's designed so that people sitting around the table can comfortably reach the central touch area from any position.

In a sleek metal design the table structure is ergonomic (from 6 up to 10 people) and includes a high performance controller based on the latest Intel CPU. A professional, high brightness 65" LCD, with a pin-sharp resolution of 3840x2160 pixels and extended viewing angles, delivers perfectly smooth and vivid images, with high-quality content, even at the extreme angles for the people seated around the table. In addition, it comes with four side connection bays equipped with power supply, video signal and data connections.

The table surface is a clear transparent multi touch glass with 40 simultaneous touch, pressure and palm recognition. All around the edge of the glass is a 20 cm surface in acrylic nanotech resin, that is anti-fingerprint, anti-scratch, antibacterial; with a soft feeling matt finish. As an option it's possible to equip the T5 with a wireless charger for mobile phones and smart devices that are hidden below the surface.

The T5 multi touch table can be joined with a squared extension to build a longer table. The base table and the extension can be joined with additional modules to compose different table layouts including L and U shapes.

### *Innovative features*

- ❑ **Designed for meeting room** and for huddle rooms with a special care to the ergonomics
- ❑ **All in one solution** with integrated display, controller and structure managed by a single power button
- ❑ **Extensive connections possibilities** through exclusive and customizable side connection bays solution
- ❑ **High-tech materials** like acrylic nanotech resin and ultimate touch glass-
- ❑ **Mechanical variants** from lift version up to table extension for bigger meeting rooms
- ❑ **Wide range of customization** of the material, surface and structure colors and connections possible
- ❑ **Modular concept** with main unit and extension adaptable to any shape, from linear to U shape
- ❑ **Classic Italian design** elegant and sleek coupled with technical sophistication

## Technical specification

### GENERAL

Dimensions	187 x 125 cm
Height	74 cm
Worktop	nanotech acrylic resin

Weight	<180 kg
Power consumption	
Touch PC version	Projected capacitive

### DISPLAY

Panel type	IPS
Diagonal	65" 16:9
Brightness	>500cd/m <sup>2</sup>
Resolution	3840 x 2160 pixel
Pixel pitch	0,38 mm
Colors	1,07G (10 bit)

Color Gamut	>68%
Response time	8ms (G to G)
Use	H24
Backlight	Direct LED
Backlight	>60.000 h (lum. 50%)
Viewing angle	178°

### MECHANICAL AND CONNECTIVITY

Surface dimension	187 x 125 cm
Structure	steel
Colors	black and aluminium (RAL)
Coating	Fusion-bond epoxy powder
Active touch area	142.8 x 80.3cm InGlass™
Pressure Detection	1000 levels
Multiple touch	<= 40 simultaneous touch
Transparency/Light transmission	>89%

Connection inputs	4 side bays each with 8 slots
-> Power Button	Power Button Blu LED (2 slot)
-> Data USB	Data USB 3.1 type A (1 slot)
-> Recharge USB	Dual USB type A with 2A (2 slot)
-> Power Plug	Multiformat EU CEE7/16, UK BS-1363, USA (2 slots)
-> HDMI/VGA	HDMI type A (1 slot)
-> VGA	DB15 pin receptacle (2 slots)
-> Network	Dual RJ45 receptacle (2 slots)

### TABLE EXTENSION

Surface dimension	125 x 125 cm
Structure	steel
Colors	black and aluminium (RAL)

Worktop	nanotech acrylic resin
Weight	<70 kg
Connection inputs	2 side bays each with 8 slots

### OPTIONS

Colors	Any RAL colors for the steel structure
Wireless charger	up to one each corner of the table
Speaker	additional speaker 20W each

Touch PCAP	projected capacitive touch instead of inGlass
Top	full glass top (with PCAP touch)
Electric lifter	to raise the surface up to 90 cm
